Credit card payment - quick and easy

Want to settle your electricity bill in a fast and convenient way? With Credit Card Autopay Service, you can enjoy peace of mind that your electricity bill will be paid automatically two working days before the Payment Due Date through your credit card account.

Customers with ICBC/BNU/Luso Bank credit cards* can apply for the Credit Card Autopay Service at the respective banks and CEM Customer Service Centres. ICBC customers who apply for the service before 31 December will receive MOP30 cash rebate.

*ICBC accepts Autopay service for Visa, MasterCard and UnionPay credit cards; BNU and Luso Bank accept Visa and MasterCard credit cards only.

CEM Sustainability Report

To enable the public to recognize CEM's performances and achievements in environmental protection, as well as to let the customers to have a thorough understanding about CEM's efforts on balancing economic, social and environmental expectations, CEM has been publishing Sustainability Report annually since 2002. 2014 CEM Sustainability Report has been uploaded onto CEM website www.cem-macau.com. Feel free to have a browse!

Power knowledge

Have you ever imagined that electricity can be generated simply by walking? A British technology company launched an eco-friendly electricity-generating tile. It can convert the energy from pedestrians' footsteps into electricity to supply facilities such as corridor and street lighting. The tile is waterproof and 100% made of recycled tires. For wider application, further improvement on the tile is undergoing now in the hope of transmitting the converted electricity to power grid.
