Companhia de Electricidade de Macau - CEM, S.A.

"Coloane Power Station CCB K1 Oil Storage Tanks Functionality Recovery"

Admission Conditions

(Tender Ref. PLD-CS240/26/33)

1. The Tenderers must have the qualification of inspection for vertical cylindrical steel-welded storage tanks in petrochemical industry. If participating as Consortium / Joint-Venture (JV), at least one Consortium / Joint-Venture (JV) member must have the related qualification.

2. The Tenderers must have related experience in the inspection and maintenance for vertical cylindrical steel-welded storage tanks in petrochemical industry during 2021 to the tender closing date.

3. The Tenderers must provide relevant qualification certificates for inspection personnel of vertical cylindrical steel-welded oil tanks, such as certifications for magnetic flux leakage testing, acoustic emission testing, and other nondestructive testing (NDT) methods.

4. The Tenderers must declare that there has been no record of fatal / serious work-related accidents in the past 3 years.

5. The Tenderers must declare commitment to employ only local workers or giving priority to local workers.

6. Whether participating independently or as part of a Consortium / Joint-Venture (JV), a tenderer may only submit one proposal for this tender. In case the Tenderers are formed in Consortium / Joint-Venture (JV), this must be clearly stated on the Tenderer's corresponding signed the Composition Statement by both parties.

7. The Tenderers must not submit proposals that could disrupt normal bidding conditions, especially if the involved tenderers have the same shareholders or administrative body members.

8. The Tenderers can participate in the tender only if they simultaneously meet the requirements specified in clauses 1 to 7.
