CEM x BOC: Special offer for e-Bill & Autopay Services!

Until 31 December 2025, customers who meet the specified requirements can enjoy the following benefits:

- MOP50 rebate on electricity bills: For new CEM e-Bill registrations with at least 3 consecutive months of usage;

- Entry into BOC monthly lucky draw: For new BOC autopay registrations;

- MOP50 BOC coupon: For new BOC autopay registrations with an active CEM e-Bill.

Promotion details

CEM wallet now supports auto top-up!

EV customers can now activate the #ICBCMacau "Auto Top-up" service in the CEM APP, so you no longer need to worry about insufficient balance affecting your charging! If your wallet balance falls below MOP10 during charging, or below MOP30 after charging, the CEM APP will automatically top up the preset amount from your linked #ICBC ePayment account to your CEM wallet.

To activate, simply log in to the CEM APP and click "Profile" at the bottom right > "Electric Vehicle" > "ICBC Auto Top-up", then follow the instructions to complete the activation.

Visit our renovated exhibition at the Coloane Power Station

We have revamped our exhibition room with new content and interaction displays on green drive, smart city, carbon neutrality, and much more. Form a group of 20-50 people with your schoolmates, association members, or company colleagues and visit us on weekdays, from 10:00am to 12:00pm and 3:00pm to 5:00pm. Make your reservation through the CEM website. For inquiries, please call 8393 1206.

Choosing safe electrical appliances

While enjoying the benefits of electrical appliances in the comfort of your home, safety should never be overlooked. Here are some tips to help you select reliable and safe electrical products:

✓ Look for safety certification marks on the product;   CCC CE FC

✓ Prefer buying new products from reputable retailers;

✓ Verify that the appliance's voltage and power requirements are compatible;

✓ Check and compare product safety labels and energy ratings.
